

BHONE MYAT HEIN

FLUTTER SPECIALIST · MOBILE DEVELOPER

About Me

Production-focused **Flutter Specialist** dedicated to engineering clean, modular mobile applications with strict layer separation and predictable state management (Riverpod, BLoC, Provider).

Experienced in offline-first transactional pipelines (Isar, Sqflite), RESTful API integration (Dio), Firebase real-time backends, and live IoT hardware telemetry (ESP32).

Proven track record delivering published production apps on **APKPure** with responsive 60fps UX and automated test coverage.

Experience & Education

- Flutter Developer Intern** 2025
San Dev · Mobile Studio 1 Program
 - Translated complex Figma design specs into responsive Flutter interfaces with modular widgets.
 - Integrated REST APIs via Dio with token rotation, error interceptors, and typed JSON schemas.
 - Implemented reactive state management and collaborated closely in team code reviews.
- Independent Mobile Engineer** 2024 – Present
Self-Directed · Production Portfolio Releases
 - PocketPilot:** Published live to APKPure; offline-first Isar NoSQL caching & Riverpod 3.
 - Plant Monitoring:** ESP32 telemetry, MJPEG live video streaming & Gemini AI vision.
 - Quick Puz:** 6-in-1 modular puzzle game engine validated with 38 automated test suites.
- Bachelor of Computer Science (B.C.Sc)** 2022 – 2025
University of Computer Studies (Meiktila)
 - Graduated:** January 2026 · **GPA:** 2.63 / 4.0
 - Capstone Thesis:** Domestic Airline Ticket Reservation System (Flutter + Laravel REST API).
 - Coursework:** University of Computer Studies (Loikaw) (2017 – 2020).
- Flutter Basic Course & Certification** 2024 – 2025
San Dev Training Center · Foundation Certification

Languages

Burmese Native / Fluent

English B2 Upper-Int.

Chinese Elementary

Core Engineering Strengths

- Clean Architecture:** Domain-driven layer separation.
- Offline Resilience:** Isar / Sqflite background sync.
- Testing Standards:** Widget & Unit test automation.
- Store Deployment:** Keystore signing & APKPure live.

Contact & Profiles

- Phone** +95 977 538 6728
- Email** 556bhonemyathein@gmail.com

- GitHub** github.com/556bhonemyathein
- LinkedIn** in/556bhonemyathein
- Location** Yangon, Myanmar

Technical Skills

- Flutter & Modern Dart**
 - Dart 3 records, Material 3, Cupertino, spring/physics animations
- State Management**
 - Riverpod, BLoC / Cubit, Provider, GetX, reactive streams
- Offline DB & Storage**
 - Isar NoSQL, Sqflite, Hive, SecureStorage, local-first cache
- Networking & Cloud**
 - REST APIs, Dio interceptors, JWT rotation, Firebase Auth & Firestore
- Architecture & Patterns**
 - Clean Architecture, Feature-First, MVVM, Repository pattern
- Hardware, IoT & DevOps**
 - ESP32 telemetry, MQTT, MJPEG stream, flutter_test, APKPure live

Featured Projects

- PocketPilot** **APKPure Release**
Personal finance app with offline-first Isar DB, Riverpod 3 & Dio retry.
- Plant Monitoring** **IoT & Gemini AI**
ESP32 crop telemetry, live MJPEG stream & AI vision plant diagnosis.
- Airline Ticket System** **B.C.Sc Capstone**
Domestic flight booking, seat locking, multi-wallets & thermal PDF pass.
- Quick Puz** **6-in-1 Engine**
Modular puzzle suite with solvable parity math & 38 passing tests.
